A favorite level-based objective within the Tony Hawk Pro Skater series was to find and collect the letters S, K, A, T, E, to form the word "SKATE." In honor of the classic challenge, color and cut out the letters provided in this and the next page and use them to play one of the suggested games on the next page (or your own game)!*

**Game Ideas**

1. Scatter the letters on a cluttered desk, take a photo, and share the photo on social media with a challenge to your friends to find each letter.

2. Scatter the letters in plain view in a room, frontyard, or backyard and time how quickly each person in your household can collect them and return them to a starting point.*

3. Coordinate with four neighbors to post letters on their mailboxes, then post the “S” on your mailbox with a fun challenge statement to neighborhood walkers to find and take a photo of each letter and share a collage with the hashtag #comiconmuseum.*

*Participation is “at your own risk.” Comic-Con International entities are not liable for any harm resulting from your participation.
Design Your Own

Color and cut out the provided apparel and draw your own skate characters. Email a photo of you and your illustrations (or paper characters!) to museumops@comic-con.org for a chance to be featured in our social media channels!
# Tricks of the Trade

Tony Hawk’s Pro Skater 1 and Pro Skater 2 not only garnered the excitement of longtime skateboarders and skate fans, it also cultivated an appreciation for (and education of) the sport in video gamers who’d never skated in real life. Listed below are standard tricks also featured in the games. Can you match them to their correct descriptions?
